

Final Project Proposal

Instructor: Dr. Anthony Cabrera

Due Date: November 8, 2024

Assignment Description

The purpose of this assignment is to write a proposal for your final project. The proposal should have the following components:

- Introduction/Motivation
- Background
- Proposed work

The page limit for this is 4 pages.

Note that you have 4 weeks (including Thanksgiving break) to complete your project. In the proposed work section, **be sure to elaborate on how much time you think each of your proposed project elements will take.**

HLS Requirement

I plan to be flexible on the subject matter of your project. The only firm requirement is that there is a high level synthesis component. You should plan to build something and run it on one of the U280s.
